Profile

Brianna provides project support, event management, and logistical coordination for Keystone Policy Center’s programmatic work. She evaluates and manages virtual platforms for meetings, webinars, and conferences according to each project’s shifting needs. Prior to joining Keystone in 2014, her professional experience included program management for a national nonprofit and executive support for the animal health industry.

Relevant Keystone Projects

- **Keystone Energy Board**

Brianna provides ongoing virtual meeting support and membership coordination for the Keystone Energy Board, a forum for energy leaders to discuss and debate timely energy and environmental issues. The board is composed of approximately 50 individuals with varied perspectives on energy policy, including industry, technology, environmental NGOs, consumer advocacy, and state and federal government.

- **Farm Labor Practices Group**

Brianna provides ongoing project support and virtual meeting logistics for a long-running cross-sector dialogue focused on helping farmworkers and growers in production of labor-intensive crops better understand and comply with applicable labor laws and regulations, and on fostering improved practices that shape a worker’s experience on the farm. Member organizations include advocacy NGOs, grower associations, commodity buyers and product manufacturers, federal and state agencies, and the Office of the Consul General of Mexico in Raleigh.

- **CRISPRcon: Conversations on Science, Society, and Gene Editing**

Brianna provides event management for CRISPRcon, a unique forum in which a broad selection of diverse voices come together to discuss the future of CRISPR and related gene editing technologies across a variety of applications. To date, CRISPRcon events have been held in-person in the USA and Europe, and virtually through a series of 10 webinars with over 650 participants.

Relevant Keystone Projects (con't.)

- **ASTHO/CDC Electronic Health Record Access**

Brianna provided project support and logistics coordination for this project which gathered input from stakeholders across the country to identify ways to improve Electronic Health Record access between healthcare facilities and state health officials in the event of an outbreak. Brianna coordinated the scheduling of more than 40 one-on-one interviews conducted by teleconference. As part of this project, she also supported a meeting of key state and territorial health officials by managing registrations and coordinating travel arrangements for all invited participants.
